Six months, : : 1 50  
Three months, : : 1 00  
Advertising rates on application.

Entered at the Kingman Postoffice as Second Class Mail.

Mrs. Ray Wheelock, who has been on the sick list the past few days, will leave this evening for Los Angeles.

Chairman of the Board of Supervisors J. C. Potts has gone to Phoenix, where he will look after important county business and make the acquaintance of a nephew he has not seen in forty years.

It is expected that Mohave county bonds would arrive in Kingman this week and that as soon as the signature of the chairman of the board of supervisors was affixed they would be returned to Kansas City and the money paid over.

L. A. Dockery and the Qualey Brothers have gone to the McCracken mine, where they will make a thorough examination of that property. The gentlemen are capable of handling just such a mining proposition and it is to be hoped that they will take it over.

M. A. Burke, who has been operating his mining claims in the Stockton Hill section, is in Kingman. He reports having opened up a nice body of ore in one of the properties and that with proper milling appliances it could be made a good paying investment. The ore carries values in gold, silver and lead.

W. D. Grannid came in from Pasadena last Sunday morning and departed the following day to his mining properties in the lower part of Deluge Wash, by way of the Big Sandy. The mines are under development, several men having been kept at work the past three or four months and it is reported that a splendid showing of ore is now in sight.

Clarence Wilson and Hubert Smith have taken over the Big Sandy automobile stage line from H. B. White and are now operating it. The stage to the Sandy is a great convenience to the people along the route, as it gives them speedy access to Kingman and the county seat. The stage makes the trip between Owen postoffice and Kingman in four hours, a distance of about 65 miles.

The work on the Pinkham mine is showing up a great property, so it is reported. The people back of this enterprise are among the largest copper operators in the United States. L. A. Dockery is in charge of the mining work, while associated with him are the Qualey Brothers, well known Mexican mining men. The mine is to be developed to a depth of six or seven hundred feet and all the veins contiguous to the big main vein will be cut by deep crosscuts.

Kean St. Charles and Bro. have been running their concentrator plant on the Midnight mine, at Chloride, the past week and it is said that they have been getting the best of results. The plant is working smoothly and turning out a valuable product. The dumps of the mine show big bodies of low grade ores that can be worked into most desirable smelting material, while the mine has thousands of tons of a still better grade of ore that can be dressed up for the market.

Several gasoline engines and pumps were taken this week to the Big Sandy section, where they will be installed for purposes of irrigation. The high lands are being looked after by many of the old settlers of that section, as well as by the new locators. The high lands cannot be irrigated from the creek, but with wells and a thorough system of pumping these lands will be made the most productive in the valley, while at the same time they are high above any possibility of floods.

For a sprain you will find Chamberlain's Liniment excellent. It allays the pain, removes the soreness, and soon restores the parts to a healthy condition. 25 and 50 cent bottles for sale by all dealers.

LOST—one lappel Elk head button. Return to Elite and receive reward.  
T. P. DUNCAN.

**Hackberry Mine Bonded.**

This week W. B. Ridenour came down from Hackberry and met George E. Gunn, the big mining operator of Salt Lake city and entered into an optional sale of the old Hackberry mine. Mr. Gunn is to at once begin operations on the mine and will develop it to a depth far below the old workings. The mine has a shaft down on the vein about 600 feet, but owing to the big pitch of the vein it is estimated that the vertical depth is less than 400 feet.

The Hackberry was one of the big producers of this county thirty years ago, but owing to conditions then prevailing the mine was closed down when more exploitation work was necessary, since which time only a small amount of work has been done. The adjoining claim, the Hackberry South, was worked by many leasers that made excellent stakes out of it.

**Burglar Shot.**

A man giving the name of T. A. Stephens was shot and seriously wounded while attempting to burglarize the store of the Chloride Store company, last Tuesday night. During the night Joe Prisk, who was sleeping in the store building, heard some one entering the place and when an entry had been effected, called upon the intruder to halt. Instead of complying the man ran toward the door and Prisk fired, the charge of bird shot taking effect in the legs and side of the intruder. He placed the man under arrest and then did all he could to alleviate his suffering. The fellow was taken to Kingman and placed in the hospital. He was fairly peppered with the shot, but it is probable that a big silver watch he carried in his vest pocket saved him from a more serious injury, the shot penetrating the heavy case.

To effect an entrance the man had broken a heavy padlock that was placed on the door, twisting it off with a steel chisel formed into a jimmy.

**An Oversight.**

Last week in mentioning the vice presidents of the Santa Fe-Grand Canyon-Needles National Highway Association, we neglected to name Leo Ver Kamp, of Flagstaff; Harry Clark, of Holbrook; and Harry Ashtley, of Winslow. These gentlemen are among the best of the good roads boosters of the northern tier of counties, and even if we did overlook them, the people with greater foresight, named them for positions of honor among the big men whose names will ever be connected with the building of the first national highway from coast to coast.

The Arizona Southwestern Copper company has just placed an order with Denver houses for more than 20,000\$ worth of mining and milling machinery. This machinery is to be installed at the company mines at Copperville. A large compressor and several new machine drills are among the machinery to be installed, while a dynamo and engine of more than 100 horsepower is to be put in to furnish power and lights to the mine and mill. When this new machinery is installed the mine will be one of the best equipped properties in the county. At the present time the hoister on the mine is one of the best gasoline hoists in the county, having automobile engine with variable speeds and plenty of power to pull a 1500 pound bucket from the deep workings at the same rate of speed as a steam plant. The recent cutting of big ore bodies in the property has given the property good standing in the mining world and assures the success of the undertaking. The company has spent a large amount of work in the development of the mine and will soon be returning in dividends to the stockholders a big annual interest on the investment. With the building of the road to the property and the use of trucks the company is enabled to handle the supplies and ship out the product of the mill at a minimum of cost.

Carl Thomsen, manager of the U. S. Stores Company, at Goldroad, was a Kingman visitor this week.

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by all dealers.

**Superior Court.**

Last Monday was law and motion day in the Superior Court, and the reading and setting of the calendar took up the better part of the day.

E. A. Shaw was appointed administrator of the estate of the late James F. Carter by the court with bond fixed at 10,000\$.

Tuesday last the jury session of the court convened. The first cause on the calendar was that of Jimmie Joe Brown, who plead guilty to the charge of attempting to pass a fictitious check. He received a sentence of from one to fourteen years for the offense.

Ed. Bell was tried by jury of the offense of aggravated assault upon one Minnie Saika. He was acquitted. Ross H. Blakely defended the cause, while the state was represented by C. W. Herndon, County Attorney.

Arturo Munoz was tried before a jury on charge of assault to kill, but the jury after deliberation found him not guilty. The assault was alleged to have been made some distance below the town of Signal, and as there were no witnesses to the assault the jury gave the defendant the benefit of the doubt and acquitted him.

In the cause of Paul Carpenter against Arthur L. Harris and others the suit was dismissed without prejudice at request of plaintiff. This cause was for recovery of payment for certain machinery now on the Berkely mine, in Cedar district, the defense being that the machinery was not as represented.

The famous cow case of Greele against Fancher was tried before a jury, E. S. Clark representing the plaintiff and Ross H. Blakely and J. E. Russell the defendant. After a two days trial of the issues the jury found in favor of Greele. This virtually settles the question as far as the court is concerned, but leaves the matter open for discussion among the laymen.

This evening Judge Krook will leave for Yavapai county, where he will open court Monday morning, having been called there to sit in place of Judge Smith, who is disqualified in certain causes.

**To the Ladies of Kingman.**

At the close of the convention of the Northern Arizona Good Roads Association, it was the unanimously expressed wish of the delegates present that the Ladies of Kingman should be properly apprised of the convention's enthusiastic appreciation of the banquet provided by the Ladies and thoroughly enjoyed by each individual delegate.

At a recent meeting of the Mohave County Good Roads Association, the Secretary was instructed to draft a letter for publication which should attempt to convey this sentiment and to add thereto, in behalf of the local Association, an expression of gratitude for the willing and efficient co-operation of the Ladies in making the Kingman Convention the success which their services permitted us to achieve.

We hope that each one has been thanked individually and can truthfully apologize for the delay in making this public declaration of esteem only on the ground that our mental activity suffered from too great a physical enjoyment of the banquet served.

Thanking you sincerely, we are  
MOHAVE COUNTY GOOD ROADS ASSO.,  
E. F. THOMPSON,  
Secretary.

February 14, 1913.

The little child of Mr. and Mrs. Clyde Cofer died in Kingman last Thursday morning of pneumonia, after a short illness. The bereaved parents took the body of the little one to their home on the big Sandy, where it will be buried today.

Mr. and Mrs. John H. Ware and George A. Bonelli have returned from Los Angeles, where they went after the big gathering of good roads boosters at San Bernardino.

**Health Warning.**

Make every effort to avoid having damp chilled or wet feet. Chilling the feet results in congesting the internal organs, and inflammation of the kidneys and bladder, with rheumatic twinges and pain in back, generally follow. Use Foley Kidney Pills. They are the best medicine made for all disorders of the kidneys, for bladder irregularities, and for backache and rheumatism. They do not contain habit forming drugs. Tonic in action, quick results. H. H. Watkins.

**WE PROVE OR PAY**

If you are weak and run-down and your blood is not as it should be, don't wait until next spring before you seek a remedy. Delay is dangerous. Renew your vitality and strength, and correct the impoverished condition of your blood, by using **Rexall Blood Tablets**.  
To overcome the debilitating effect of hot weather, of overwork, or anything else that has put the blood in a bad condition, we recommend **Rexall Blood Tablets**, and guarantee that they will aid in restoring the blood to its normal health and purity and benefit the entire system—or your money back. Price, 50 cents. Sold in this community only at my store.

**The Rexall Store**

**W. H. MARSH**

**DRUGGIST.**

**Telephone 52**

Miss Frieda Jungi, daughter of Mrs. Rose Jungi of the Kingman Rooming House, returned last Sunday from Los Angeles, where she completed a business course in one of the colleges of that city.

A survey was made this week of the lower end of the Kingman canyon road, and men are making the grade that will connect the road with the high ground near the old Maguire place. This piece of road will take the greater part of the highway south of town out of the canyon and make it passable at all times. It is the intention to also build the upper end of the road into town, making a highline roadway through the entire canyon.

We have in stock all sizes automobile tires and guarantee 3,500 miles. Can refer to many users as to satisfaction. Call and see us.  
S-Mar 1 GADDIS & PERRY CO.

Mrs. S. S. S. Van Buren St., Kingston, N. Y. (full name furnished on application) had such decided benefit from using Foley's Honey & Tar Compound that she shares her good fortune with others. She writes: "Foley's Honey & Tar Compound brought my voice back to me during a severe case of bronchitis and laryngitis. Oh, how many people I have recommended it to." Remember the name **Foley's Honey & Tar Compound**, and refuse substitutes. Contains no opiates. H. H. Watkins, Druggist.

**Good Roads Dance.**

At a meeting of the Mohave County Good Roads Association, held at the offices of the Association in Kingman this week, it was ordered that a committee be appointed for the purpose of giving a dance at Elks Opera House on the evening of February 22, 1913, Washington's Birthday, for the purpose of raising funds to meet expenses that have been and may hereafter be incurred by the Association. I. Bartholomew was appointed to head the committee and to select as many assistants as he might require. Tickets for the dance were placed at one dollar each, and everybody should see that everybody else comes into possession of one of these souvenirs. Don't overlook the dance and help the big project along.

Mrs. S. T. Elliott is spending the week in Los Angeles.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For Sale by all dealers.

Nobody likes the man who talks too much. Part of our service is to sell goods that speak for themselves

**VALUE; that's our cardinal principle; value to you, in every item, in every business day, to see that for your money we give value—better value, if possible, than anywhere else.**

**S. T. ELLIOTT**

This store is the home of Hart Schaffner & Marx clothes

**There is a Satisfaction**

in seeing the article you buy and in getting it when you want it. We invite your inspection of the largest and most complete stock of general merchandise in Mohave County. The following list may be of interest to you and enable you to form some idea of what we carry in stock:
